

Composting

Annotations from OCLC WorldCat

	<p>Bial, Raymond. <i>A Handful of Dirt</i>. New York: Walker, 2000. Print.</p> <p>Discusses the nature and importance of soil and the many forms of life it supports.</p>
	<p>Glaser, Linda, and Shelley Rotner. <i>Garbage Helps Our Garden Grow: A Compost Story</i>. Minneapolis, MN: Millbrook Press, 2010. Print.</p> <p>Photographs and text helps young readers understand the importance of compost for their garden.</p>
	<p>Katz, Cooper S. <i>The Compost Heap</i>. Chicago, Ill: Raintree, 2010. Print.</p> <p>An introduction to compost heaps that explains how they are made, what types of insects live in them, and why they are beneficial.</p>
	<p>Koontz, Robin M, and Matthew Harrad. <i>Composting: Nature's Recyclers</i>. Minneapolis, MN: Picture Window Books, 2007. Print.</p> <p>Describes what composting is, what goes into compost, and why composting is beneficial.</p>

	<p>Pleasant, Barbara, and Deborah L. Martin. <i>The Complete Compost Gardening Guide</i>. North Adams, MA: Storey Pub, 2008. Print.</p> <p>Explains how to transform one's garden into a nourishing, organic environment with the use of compost customized to the special needs and soil of each garden.</p>
	<p>Ridley, Sarah. <i>Minibeasts in the Compost Heap</i>. Mankato, Minn: Smart Apple Media, 2010. Print.</p> <p>Profiles many insects and invertebrates found in compost heaps, discussing their eating habits, habitats, and survival skills</p>
	<p>Siddals, Mary M. K, and Ashley Wolff. <i>Compost Stew: An a to Z Recipe for the Earth.</i> , 2010. Print.</p> <p>A rhyming text explains from A to Z, which common items around the house can be turned into the dark, crumbly stuff we call "compost stew". The collage illustrations are made from some of those items to help make the point. There's a note at the end of the text listing things that are not suitable for adding to the compost bin.</p>
	<p>Silverman, Buffy. <i>Composting: Decomposition</i>. Chicago, Ill: Heinemann Library, 2008. Print.</p> <p>An overview of composting that defines what it is; discusses decomposers, worm farms, and other related topics; and includes a glossary and resources.</p>
